Dear Public Service Comm. of SC,

I am totally against the rate hike that Duke Energy is proposing at this time. I know for a fact there has been nothing but mismanagement, culture of laziness and the money was spent by misuse of funds from the Duke Energy Company. Now they want to pass this along on the back of Duke Energy Customers.

When the PR man for Duke Energy is on the television trying to justify the rate increase to the public and customers it sickens me because I know it is nothing but a "smoke and mirror show".

Please tell them no. No rate increase.

Sincerely,

Sherry R. Moore
